Ref. No. 16859 /UPEIDA/20/1587/TC Dated: 25 March, 2021

Invitation to the prospective bidders for Development of Access Controlled Ganga Expressway (Greenfield) Project to be executed on DBFOT mode under PPP

Govt. of UP through its agency UP Expressways Industrial Development Authority (UPEIDA) is on the fast track to invitation of bids on DBFOT mode under PPP for implementation of Ganga Expressway Project. The RFQ cum RFP documents for the project are expected to be floated soon.

Ganga Expressway is flagship Expressway Project of the Govt. of Uttar Pradesh. The expressway is planned parallel to river Ganga from Haridwar to Varanasi. In the first phase the expressway covers a distance of 593.947 Km from Meerut to Prayagraj. It is proposed to be 06-lane (expandable to 08-lane) Greenfield expressway project with structures of 08-lane width. The ROW width is 120m for which land acquisition is already in progress. Land acquisition for the Project is expected to be completed by June 2021.

The expressway will have 09 Wayside Amenities and 17 interchanges at X-ing with major roads including National Highways, State Highways and Major Distt. Roads for providing exit/entry to the expressway. Several industrial/commercial zones are also planned to be developed along the expressway.

Presently Yamuna Expressway (165 Km) and Agra-Lucknow Expressway (302 Km) are functional connecting the National capital, New Delhi to the Agra and further to Lucknow.

UPEIDA is the nodal agency of the Govt. of UP for development of expressways in the state of UP. After successfully completing Agra-Lucknow Expressway, UPEIDA is developing 03 more expressways namely Purvanchal Expressway (341 Km), Bundelkhand Expressway (296 Km) and Gorakhpur Link Expressway (91 Km). Construction of all the 03 Expressways is going on at a fast pace. Purvanchal Expressway is expected to be completed soon whereas Bundelkhand Expressway by the end of Year 2021.

An invitation to undertake field visit of Ganga Expressway project to the willing prospective developers is being extended by UPEIDA with the assurance that all the facility required for the site visit to the delegation of prospective developers shall be arranged by UPEIDA for the developers to have first hand account of the ground situation with regard to the alignment through which the proposed Ganga Expressway will traverse.
